VOCABULARY TO THE TOCHARIAN PUṆYAVANTAJĀTAKA *

GEORGE S. LANE
UNIVERSITY OF NORTH CAROLINA

PREFACE

AN ATTEMPT is made to list all forms occurring in the text with citations of the places by manuscript leaf and line. In the case of frequently recurrent forms, of course, only the first three or four references are cited. The sign ~ indicates the previously cited form or stem. References are made by page to the more pertinent discussions of the forms in Sieg, Siegling, and Schulze, Tocharische Grammatik (abbreviated SSS). In the case of verbs, the Roman numerals in parentheses indicate the class of present, imperfect, or preterit in SSS. The use of parentheses enclosing citations, e. g., under *läk-, lkāmāṃ* (5b2), indicates whole or partial reconstructions considered dubious.

Further study of Sieg's translation (Übersetzungen aus dem Tocharischen I, Berlin 1944) has, in a few instances, caused me to change my views on reconstructions or meanings from those in my published text and translation. I have taken advantage of these reconsiderations in this glossary. A reference to the alternate and now preferred interpretation will be found in a footnote to the translation at the appropriate place. The reader is begged to check these footnotes in case of discrepancies between text and glossary.

The alphabetical order follows as closely as possible the Sanskrit, namely, *a, ā, ä, i, u, e, (ai), o, (au), k, (kh), (g), (gh), ṅ, c, (ch), (j), (jh), ñ, (ṭ), (ṭh), (ḍ), (ḍh), (ṇ), t, (th), (d), (dh), n, p, (ph), (b), (bh), m, y, r, l, (v), w, ś, ṣ, s, ts, h* (letters in parentheses occur in Sanskrit words only, except *v* as alternate spelling for *p* or *w*). Toch. *ṃ* = *n* finally and frequently before sibilants and *t*, rarely elsewhere. This is the same order used in the index of SSS except that *ts* and *h* are here reversed. It seems more consistent to place *ts* with the sibilants.

Attention is called to the list of errata to the text and translation

* *JAOS* 67, 33-53.

placed at the end of this Preface. The user is begged to enter all these corrections before trying to use the text. The author regrets deeply the lengthy list.

Immediately before the glossary there is reproduced as a specimen text a copy in the Brāhmī alphabet of Sprachreste **1***a*1 through **1***a*5 (with reconstructions), along with a table of Brāhmī characters and the principal ligatures. It is hoped that this will assist somewhat in case anyone should wish to consult the facsimiles of the Sprachreste, or perhaps eventually the Tocharian manuscripts themselves.

I wish to thank Mr. Garabad Shargabian of Harvard University for his careful reading of the typescript. Many errors have been eliminated thereby.

Fortunately Professor Couvreur's review [1] of my text and translation arrived before the typescript went to the printer. I have therefore been able to take advantage of his valued criticisms and I take this occasion to thank him for his kind courtesy in sending them to me at once. Likewise, Professor Sieg was good enough to take time from his work on the B materials to send me several important corrections. It is to Professor Sieg that I owe the original suggestion that a vocabulary would be a welcome contribution.
